

Angel of Darkness - Revised

I am the angel of darkness
When you sleep, I comfort you
I can traumatize even the toughest of men
People take refuge within me
People use me against others

I am the angel of darkness
I bring the children to sleep
I bring children to fear me
I am present in scary stories
I am watching when scary stories are told

I am the angel of darkness
Men bring light to break me
I am an envelope that cannot be broken
We cannot touch each other
Yet people fear me

I am the angel of darkness
People hide in my obscurity
Where others cannot see them
They know I am there for them
Yet I have said nothing

I am the angel of darkness
I am there as a weapon
Yet I shed no blood
People hide in my shadow
To hurt others without being seen

I am the angel of darkness
I am there at a person's death
I have overcome their world
I darken the coffin
I have taken the life

I am the angel of darkness
I will not enter the light
There is no brightness
I live in the night

I am the angel of darkness
I am not able to sense
See, touch, hear, smell, or taste

But *you* can sense me

I may not be animate,
But you cannot overlook me
I make you see nightmares
I am ice cold to your touch
And I carry any manner of sounds
At times I carry a foul smell,
My taste commensurate to poison

I am the devil of light
